PREBLE COUNTY, OHIO, BIRTHS 1877 - 1886

Volume II

These births were taken from the books found in the Probate Court of Preble County. Some of the writing is very hard to read. It is possible these births were re-copied from other records. This might account for the fact that in some cases births are entered twice under different dates and the name of the child is spelled differently than that of the father.

No effort was made to correct spelling but every effort was made to transcribe writing correctly. The births are entered by years. When they were alphabetized, it became obvious some of the names were not correct, as far as the parents are concerned.

When there is a question, it might be helpful to consult census records or marriage license records.
